On-wheels Multi-Process Inverter Welder

Synergetic and **Manual** Control

Multiple Process with **MIG** (GMAW) , **Flux Cored** (FCAW), **MMA** (SMAW) and **TIG** (GTAW)

Light/Mid. industrial job shop fabrication, maintenance , DIY and repair work.

Delivers ;

- Superior arc,
- Excellent out-of position precise arc stability,
- Low spatter
- High quality weld bead appearance for steel, stainless steel and aluminum

Save and Load which makes easier for the welder set-up the machine for daily routine applications.

Synergetic control; default welding parameters according to base materials and wire sizes for excellent & stable output characteristics for perfect welding.

Manual Control ; Allowed to precisely adjust & set up welding parameters for desired welding outputs for tough applications for getting superior welding.

SHANGHAI HUGONG ELECTRIC (GROUP) CO., LTD.

Welding Modes; MIG (GMAW) ,Flux Cored (FCAW), MMA (SMAW) and TIG (GTAW)

Base Materials ; Steel, stainless steel, aluminum and Cu-Si alloys

Wire Sizes; 0.8/0.9/1.0/ and 1.2

Latch; 2T,4T and Spot Welding

Inductance; Adjustable inductance allows maintain the precise output for tough applications.

Digital Meter Displays (V & A) ; Displays preset voltage & wire feed speed and actual values during the welding.

Start Speed ; Adjustable run-in speed for smoother arc starting,

Burn-Back Time; Adjustable burn back time to eliminate wire sticking into the welding puddle

Steel Made , Robust And Compact Main Structure for Tough Conditions

Easy Load Gas Cylinder Platform

User Friendly and Easy to Use Control Panel

Easy Load Wire Compartment

Euro Type Quick Connectors

On-Wheels

Patented Design

SHANGHAI HUGONG ELECTRIC (GROUP) CO., LTD.
